

Charles River Apparel Size Equivalence Chart

These sizes and body measurements are intended as a guide to assist with sizing - these are not exact garment measurements. Locate your measurements below and then the chart will tell you the approximate CRA size you should fit into. For style-specific measurements visit our website at www.charlesriverapparel.com and click on the individual style to view the garment's specs.

TODDLER SERIES	Fits average sized toddlers approximately 2-3 years old (style numbers beginning with a "6" denote toddler styles)

Adult Measurement Guide

Chest/Bust:

Tape measure should be placed under arms. Measure at fullest circumference around chest and back keeping the tape level.

Sleeve:

With elbow bent, measure from base of neck, across shoulder, down along the outside of arm to wrist bone.

Waist:

Measure around waist (the point where your pant waistband normally sits).

Inseam:

Use a pair of well fitting pants that are similar in style. Lay them flat and measure the inside seam from the crotch to the bottom of the pants.
